

Lab7 Screenshots:

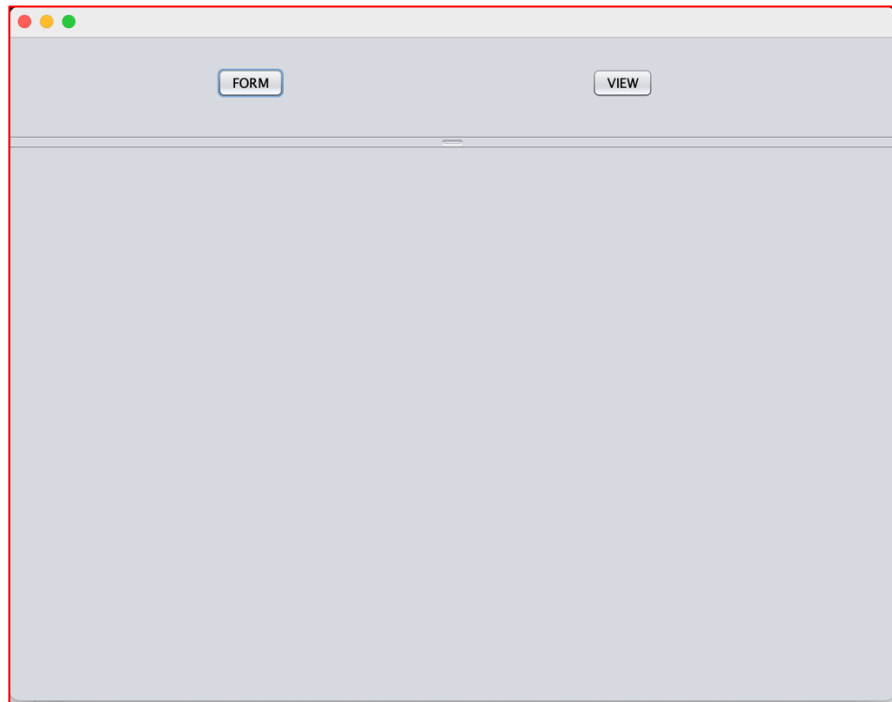

Fig1: Mainframe of User & View Form

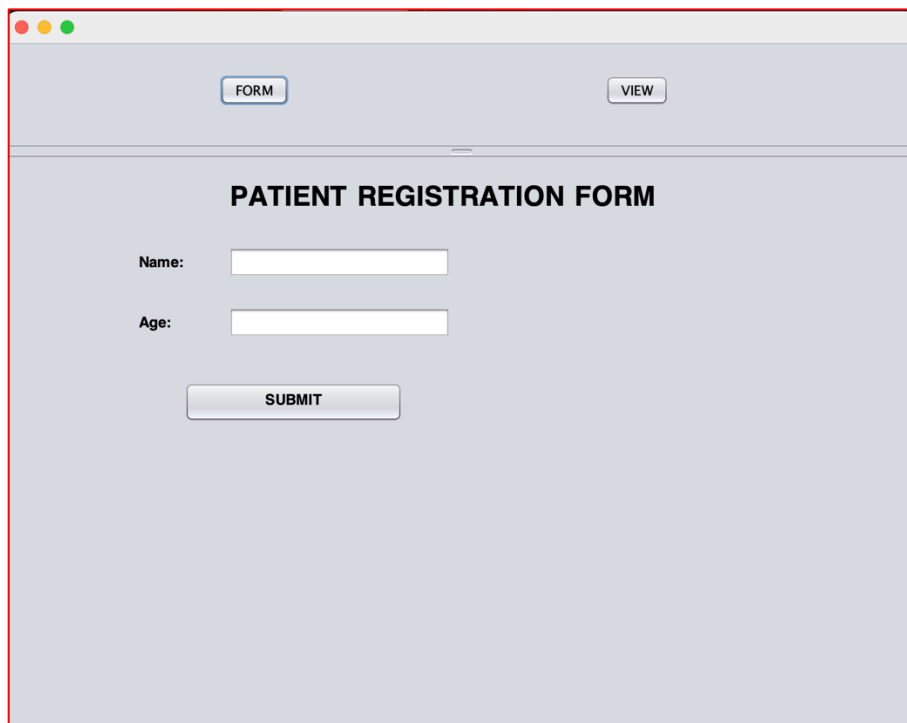

A screenshot of a software window displaying a "PATIENT REGISTRATION FORM". The window has a light gray background and a header bar with "FORM" and "VIEW" buttons. The form title "PATIENT REGISTRATION FORM" is centered at the top of the main area. Below the title, there are two input fields: "Name:" followed by a text box, and "Age:" followed by a text box. At the bottom of the form, there is a "SUBMIT" button.

Fig2: Patient Registration Form

The screenshot shows a web application window titled "PATIENT REGISTRATION FORM". At the top, there are two buttons: "FORM" and "VIEW". The main content area contains two input fields: "Name:" with the value "Shreeya" and "Age:" with the value "27". Below these fields is a "SUBMIT" button. A modal dialog box titled "Successful Registration" is displayed in the foreground, showing an information icon and the text "User Registered Successfully" with an "OK" button.

Fig3: User Registered Successfully (Create)

The screenshot shows a web application window titled "VIEW PATIENT FORM". At the top, there are two buttons: "FORM" and "VIEW". The main content area contains two input fields: "Name:" and "Age:". To the right of these fields is a "Save" button. Below the input fields is a table with the following data:

ID	Name	Age
1	Aarohi	21
2	Harsh	25
3	Gaurav	22
5	Naina	24
7	Shreeya	27

To the right of the table are three buttons: "Export", "Update", and "Delete".

The screenshot shows the MySQL Workbench interface. The 'Schemas' panel on the left shows a tree view with 'sys', 'test', and 'users' schemas. The 'Query 1' tab is active, showing a query: `Select * from test.test;`. The 'Result Grid' displays the following data:

id	name	age
1	Aarohi	21
3	Gaurav	22
5	Naina	24
7	Shreeya	26

The status bar at the bottom indicates 'Query Completed' with a green checkmark, showing '1' row(s) returned in '21:32:52' at 'S' with a duration of '0.0042 sec / 0.00028...'.
